BED JACKET

MATERIAL—5 balls 4-fold turquoise
1 ball 4-fold biege
2 balls 4-fold white
Crochet hook No. 1
2 yards white satin ribbon 2 inches wide
Crazy Daisy Winder

Daisies—Make each daisy wrapping over 2 spokes. See direction (D). Make 78 turquoise daisies making two layers of petals. Make 75 white daisies making 1 layer of petals. Make centers with biege.

TO JOIN—With turqoise, make a loop on hook. Make a single crochet under the two threads of turquoise petal*, chain 5, one single crochet under the threads of the next petal, repeat from* until there is a single crochet in each of the six petals with a chain of five stitches between; do not chain after the 6th single crochet, work a single crochet under the single thread of the white petal, then work across 5 more white petals as on the turquoise daisy. Continue this way alternating colors of daisies until the first half of 7 daisies is joined. 2nd side: Continue around the 7th. dasiy with a 5 chain between, and a single crochet in each petal, until there are 12 singles. Do not chain after the 12th. single. Work 1 treble crochet (wrap hook twice, then work off 2 loops at a time) into the stitch where this daisy joins the white daisy. This completes the circle of this daisy. Work a single crochet in the next free petal of next daisy, chain 5, 1 single crochet in the next petal and continue to join petals of this daisy with chains of 5 and single crochets until last petal of each daisy is reached, then join last petal to 1st petal with a treble crochet and work a single crochet without chain into next petal of next daisy, continue across row. When last daisy is completed with a treble, chain 10. Lay this row on table in front of you with right side up and chain of 10 still on hook at right hand. 2nd row: Work a single crochet in petal of white daisy, chain 5, a single crochet in next petal, wrap yarn 3 times around hook, insert hook in the 5th stitch of chain of 10, drawn yarn through; wrap, draw yarn through 2 loops, leaving 3 loops, wrap, drawn through on hook; wrap twice, turn up edge of work and insert hook from wrong to right side of top of single crochet in end of the 11th petal of 7th turquoise daisy, drawn yarn through, * wrap, take off 2 loops, repeat from * until only 1 loop remains, chain 5.

*Work 1 single crochet in the 3rd petal of white daisy of 2nd row, remove hook from loop, insert hook from right side in top of single crochet of 10th turquoise petal, and in loop just removed from hook, draw this loop through the single crochet, chain 5, 1 single crochet in the 4th petal of white daisy, remove hook from loop and insert hook in the single crochet at top of 9th petal of turquoise daisy, and in the loop just removed, draw this loop through the single crochet; chain 5, 1 single crochet in top of the 5th petal of white daisy of 2nd row; wrap yarn 3 times around hook, insert hook from wrong to right side in top of single crochet in the 8th turquoise petal, wrap and take off 2 loops at a time until there are 3 loops on hook; wrap twice, insert hook from wrong to right side in the single crochet in the 11th petal of the white daisy of 1st row, wrap and take off 2 loops at a time until 1 loop remains, this completes 3 sides of a cross stitch; chain 5, 1 single in the 6th petal of white daisy of 2nd row. Pick up turquoise daisy. Work 1 single crochet in a petal in edge of this daisy, chain 5, 1 single crochet in next petal of this daisy, wrap hook twice, insert in center of cross stitch, draw yarn through work, wrap, take off two loops at a time until 1 loop remains, chain 5, repeat from * alternating colors of daisies across row.

When you have worked a single crochet in the 5th loop of the 7th daisy of 2nd row, wrap 3 times, insert hook in the 8th petal of the last daisy of 1st row, wrap, take off 2 at a time until 1 loop remains, chain 5 and continue around daisy as on last daisy of 1st row and down second side of 2nd row as on 2nd side of 1st row. Continue joining daisies as in 2nd row always alternating colors until there are 21 rows of daisies—7 in a row. Turn work.

CUFFS—With wrong side toward you, * chain 5, draw up a loop under each of next 2 chain loops, repeat from * across row; there are 18 chains, turn. 2nd row: * Chain 5, 1 single under next chain of 5, chain 5, draw up a loop in each of the next 2 chain loops, wrap, draw through all 3 loops, repeat from * making 12 loops. Join to cuff 1 turquoise, 1 white, and 1 turquoise daisy same as before, working in the single crochets between chains on cuff. Crochet on 2nd side of daisies. Break yarn. Make cuff on other end. Sew together ends of cuff and ends of one row of daisies above cuff.

EDGING—With right side toward you work 1 single crochet under a chain on bed jacket, * chain 5, 1 single crochet under next chain, repeat from *. On one edge of bed jacket you will find the spaces are longer than on other edge, so you will have to make your single crochets closer to correspond. Work edging around bed jacket and on end of cuffs. Cut ribbon in half. Make a bow leaving ends to tie. Sew 1 each side of center of the fourth flower from center back.

When the "Pride of Your Life" takes the first ride . . . Be proud of that baby in a garment created by your own hands—this soft warm jacket will protect your loved one—the "Ahas" of delight from your baby will repay you a thousand-fold.

White Daisies—Wrap white yarn 3 times on single spokes. Break yarn. Make centers with pink yarn. Make 98 white daisies.

Two color daisies—Wrap pink yarn 3 times on single spokes, break yarn, do not remove from winder. With white, wrap 3 times on single spokes, making 6 threads on each spoke. Break white. Make pink centers. Make 15 two color daisies.

To join—holding right (pink) side of a two color daisy toward you for 1st daisy, working with pink under the 3 white threads of a petal. The 2nd daisy is all white working under all 3 threads of petals. Continue joining daisies until there are 12 white daisies, and 1 two color joined like 1st one. 2nd row: Join as in colors same as 1st row. 3rd row: Colors same as 2nd row having wrong (white) side of the two color daisies toward you, at each end of row, working under the three white threads of a petal. These two color daisies are turned back to form collar. 4th row: Same as 3rd row. This brings sacque up to sleeve.

Left shoulder—Join as before, 1 two color with wrong side toward you, and 2 white daisies; work around end of this 2nd white daisy and on 2nd side of this row as before. Join 1 more row of daisies for left shoulder same as last row. When 2nd side of this row is complete, continue this row down front edge joining the free petals of ends of rows. Break yarn.

Work across top of this row. Join 1 more row same as this, then continue down armhole side of these 2 rows. Break yarn.

Back—Skip for armhole the 4th daisy from left front edge on 4th row of jacket. Begin to join a white daisy same way as 1st daisy of right shoulder to the 5th daisy from left front edge. Continue to join white daisies until there are 6. This leaves out 1 daisy for right armhole. Work across top of row and join another row of 6 daisies to this row. When 9 petals of the 6th daisy have been joined, begin to join top of this row of daisies to right front shoulder as follows: Chain 3, remove hook from loop, insert hook in center of picot at armhole side of right shoulder and in loop just removed, draw this loop through, chain 2, 1 slip stitch in last slip stitch, chain 3, 1 slip stitch in next free petal of back (10th petal) and continue as before until 2 daisies of back are joined to 2 white daisies of right front; work across 2 daisies for back of neck as on previous rows leaving free the two color daisy each side of front; then join the remaining 2 daisies of back, to the 2 white daisies of left front. Continue to work as before down armhole side of the 2 rows of back. Break yarn.

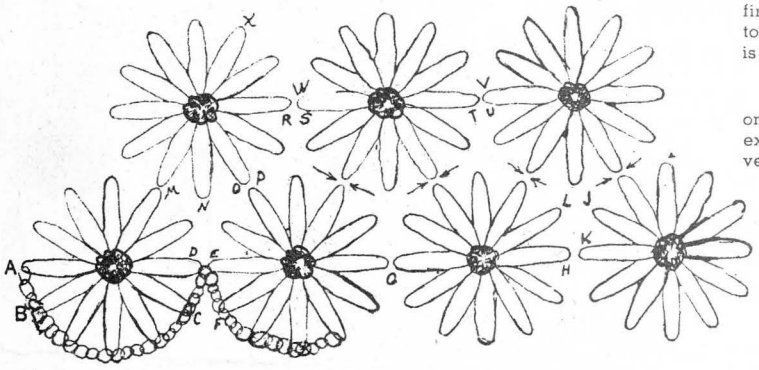
THE ART OF JOINING THE DAISIES TOGETHER

Diagram No. 1



Pick up a daisy and fasten the end of your yarn to the center in the back, that is on the wrong side. Leave about two inches of yarn as you will want to tie the ends together when you have finished. Now with a simple chain stitch Fig. 4, make a loop on one of the petals. See Diagram No. 1 above. The loop is made at "A." Now chain three stitches to B. Continue to chain three stitches between each petal until you have reached D. That is, starting at A, make your loop thru one petal, chain three to B, then a slip-stitch thru another petal, chain three again to next petal and a slip-stitch thru the petal and so on around. As you reach D you are just half way around the daisy or 7 petals and chain 1 stitch. Take your next daisy and join D and E by slip-stitch thru D on first daisy and E on second daisy thus joining them together. Chain three to F and three between each petal as before around to G. Now join your third daisy at G same as you did at D and E. Continue your chain stitch until you are around the third daisy to H and join as before your next daisy at H and K. Now if four daisies are to be your first row as in the Diagram 1 continue to chain three between each petal until you go all the way around this last daisy to K, slip-stitch thru K and then three chain stitches between each petal again around to G. Connect at G as you did at K and continue the chain around to D and E and then up to M. Be sure to stop at M, do not go around to A.

You are now ready for your second row of daisies. Put another daisy on at M just as you did at D and E. Now chain three between each petal and go to O P. At O P connect this first daisy of your second row to the second daisy of your first row by making a slip-stitch in the chain at O P. Now chain three stitches again between each petal to R and join the next daisy as before. Always make one stitch before joining each daisy.

STOP AND THINK

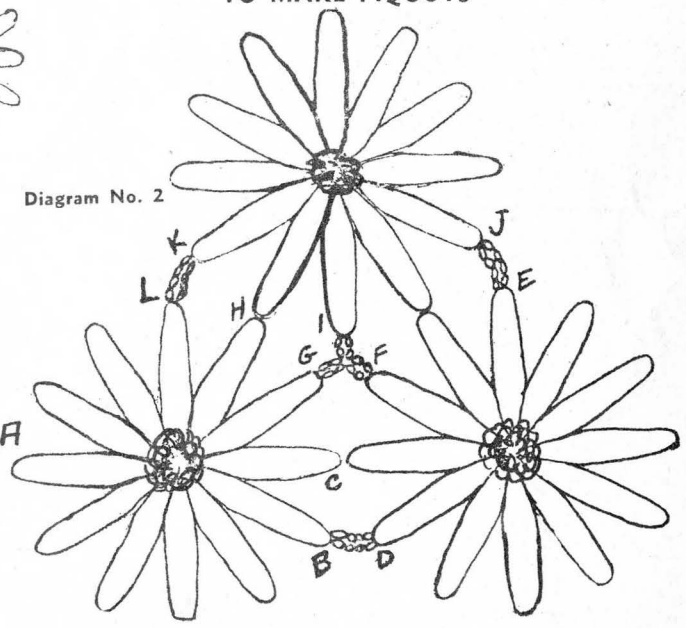
At this point it is a good thing to stop a minute and get in your mind what you have been doing. Notice that you always chain three between each petal. Notice that you always work half way round (or 7 petals) each daisy on your first row before your next one is joined. When you begin your second row, notice that every third petal is joined to another daisy. Notice the little arrows. The daisies are joined here just as you joined O and P. In the first row you put on four daisies. You have three in the second row so you must continue to chain completely around the second row as far as X. Here you will begin the third row in which you will have two daisies. Then your fourth row will have but one daisy. You now have a triangle made of daisies. Now note that the entire left side is unfinished so as you go around the daisy in the fourth row continue to chain three between each petal all the way down the unfinished side until you come back to A on the first row again which finishes the triangle, back to where you started. Tie the two ends together at the center of the daisy on the wrong side and this little job is done.

ANY SHAPE AND SIZE OF WORK

To make any shape or size of work, lay out your daisies on a table on flat surface, arrange your color scheme and then crochet together exactly as above and with a little practice you will find that it becomes very simple.

TO MAKE PIQUOTS

Diagram No. 2



LOOK AT DIAGRAM NO. 2—At A you make a loop and begin to chain three between each petal. At B you chain four and fasten this fourth stitch by slip-stitching it to the top of B by going under one strand of yarn and thru the petal. You now have a picot on B. After you put your second daisy on at C, you chain three to D. Here you chain two, go thru the picot on B with a slip-stitch and chain two more and fasten (slip-stitch) at the top of D. Now continue to chain three between each petal until you go as far as E. Here you make a picot as you did at B. At F you make another picot by chaining four and slip-stitching it to the top of F just as you did at B and D. Chain 3 to H and join 3rd daisy, ch. 3 to I, then ch. 2 and catch in top of picot at G and F, then ch 2 back to I. Now ch. 3 and join to 2nd daisy of first row, ch. 3 to J and here make picot as you did at B and D, continue around to K, here make picot, ch. 3 to H, ch. 3 back to L, make picot as you did at B and D agani and continue down unfinished side to A.

You now have a small triangle made of daisies with the picots filling up the openings in the center and you have an edge all around the triangle. For your larger pieces of work, go about it in the same manner repeating of course the operation between each daisy.
